> project rewind

> objective(s):
Students will review their previous work portfolio and select a project they would like to redo from scratch.

> curricular focus:
This project emphasizes applying new skills and greater experience to a previous level project.

> specifications:
save as: Project Rewind_Lastname.psd or Project Rewind_Lastname .ai
dimensions: to be determined
resolution: to be determined
mode: to be determined
contents: to be determined

> instruction:
• review selection process
    portfolio review of levels one and two
    choose a project that you feel you could greatly outdo if you had another chance
• discuss modifications
    projects do not necessarily have to follow the lesson plan precisely
        for example: Album Art was not allowed to use photography but perhaps you can incorporate it this time
    all modifications must have instructor's approval

> procedure:
• review all previous work
• select a project you would like to redo using your added experience and skill set
    choose something you will truly be excited to do again
• review lesson plan for that project
    look for opportunities to modify requirements
• discuss any lesson plan modifications with instructor
• create a thumbnail sketch of your composition
    label colors, fonts, graphic treatments
• approve thumbnail with instructor
• begin work on computer

> requirements:
• to be determined by instructor
    based on previous lesson plans requirements/rubric plus modifications by instructor in accordance with
    modifications made by student
